Hello, I am John Paul and I am a computer consultant. I created this computer software and web site as a software utility to make it easy for users to find the best offers for new computer hardware and software products. I provide all the information and recommendations in this site to help you save money. You are allowed to use the Windows System Utilites without fee or hassle. Microsoft's Internet Explorer is installed with Windows; it's not "free". Microsoft's Internet Explorer can be upgraded to the next version for free; however, the new version is not automatically installed unless you upgrade to the next version of Windows. Please review for more information. Best Way to Download Music to iPod. The question I have for anyone that works on a PC, is this Are there any programs out there that would allow me to >>download music from my music collection >>to my iPod and >>have it convert the music into itunes ready format >>if possible, while still keeping the details for my music collection >>like what kind of genre it is, or what instruments >>are used in the music >>or what year the music was released It would be nice if you could keep all of that information in the new iPod music library that is created when the music is downloaded to the iPod I have been looking at quite a few different software solutions and I have not been able to find one that would allow me to get the music to my iPod can someone please point me in the right direction Thanks in advance Barry Hi In iTunes the iPod automatically recognizes the type of music you have in the library by listing the Genre, or Type of Music. Any iTunes music will play on any iPod as long as the iPod can recognize the type of music. The iPod music library has all of the information you ask for. However there is also the optional iPhone applications called Genius which gives you more info about the music than iTunes. Using one of these programs is not required to get your music to the iPod. I don't know why you wouldn't be able to find one of these programs. You are allowed to use the Windows System Utilites without fee or hassle.
