The Detroit Bike Plan (2010) was a citywide plan to make Detroit a more "bicycle-friendly" city, which included policies, programs, and infrastructure that would encourage more people to ride a bike. The DBAC was made up of individuals who worked with Detroit's government to promote the use of biking in the city of Detroit. The DBAC was created as part of a broader package of four public-private working groups that were established to develop the Detroit Bike Plan. The other three groups included a Street Safety/Pedestrian Advisory Committee (2009-2011), a Pedestrian Advisory Committee (2009-2011), and a Transportation Planning Working Group (2010-2011). History The Detroit Bike Plan was a citywide plan to make Detroit a more "bicycle-friendly" city, which included policies, programs, and infrastructure that would encourage more people to ride a bike. On July 20, 2010, the DBAC held their first meeting. The group was composed of 15 members, with nine appointed by the City of Detroit, one by the Detroit Department of Transportation (DDOT), and one by the State of Michigan. The members of the DBAC served a term of two years, and were required to attend a one-day meeting at the beginning of each year. In 2013, the DBAC held their final meeting. At the time of the meeting, the group was composed of 18 members, and all of them were still serving on the committee. The DBAC was closed at the end of 2013, and the goal for the committee was to 5b5f913d15
