Handy calendar app designed to let you use your computer's touch screen as a traditional paper calendar. Create, view, and modify dates with your finger or a ballpoint pen and share them with friends. Features: - Completely touch-based, so you can use the Ink Calendar even if your computer doesn't have a mouse. - "Hello, Ink!" is a new way to interact with Windows using the edges of your screen. With the Ink Calendar, you can draw on your calendar with your finger, pen, or highlighter. - The Ink Calendar starts up automatically when you're ready to work. - You can easily move and change dates by tapping to place them where you want them. - The Calendar stores your data in a simple format that's easy to share. - The calendar can be saved as a picture on your computer. - For online calendars, you can import from Outlook and share directly from the app. - There's a colorful, animated background, so you'll never have to see the default calendar background again. - View the calendar in a grid, month, or list format. - Mark dates by drawing, highlighter, or pen. - Undo is unlimited so you can modify and edit your calendar as many times as you want. - Create drawing templates to quickly mark an event. - Live tile - Background images - Save events as pictures Description:The Ink Calendar enables you to use a virtual calendar just like you would a paper one. To be more specific, you get to use your mouse or the tip of your finger (for touchscreen users) as a ballpoint pen to mark important dates by writing or drawing directly on the calendar. Windows 10 alternative to the default Windows calendar Available for Windows 10 users only, Ink Calendar is as simple as it is useful. It displays a modern-looking calendar with a tile for each day, just like in most paper calendars. It's not possible to change the view mode but, given the purpose of the app, the default one is probably the best one to use. Navigating through the calendar is easy thanks to the left and right arrows within the main window. Additionally, you can zoom in a date using the dedicated tool. Mark important dates with your pen or your highlighter There are a highlighter and a ballpoint pen that you can use to draw directly on the calendar. Both the color and the size of the pen are customizable. And if you make

The calendar can be saved as a picture on your computer, printed on paper, or shared online directly from the application, although the latter option failed to work during our tests. A few customization options allow you to change the theme and modify the background image to your liking. A few suggestions to make the application even better Although implementing a very simple idea, Ink Calendar is an interesting application that, with a few additions and enhancements, could fancy to those who are looking for an alternative to the default Windows calendar. As a suggestion, it would be nice to have a built-in search function to find the boxes that are marked in case you need to find the date of an event. Being able to mark periodical events and create drawing templates would also come in handy, not to mention having a notification system to let you know about upcoming marked dates. Last but not least, it would be beneficial to be able to login with a Microsoft account to import existing events. Ink Calendar enables you to use a virtual calendar just like you would a paper one.
