Malignant ectopic pregnancy: a case report. We describe a case of malignant ectopic pregnancy in a 20-year-old woman who had been treated for infertility with gonadotropin therapy and intrauterine insemination. She was admitted to the hospital due to lower abdominal pain accompanied by shock. An abdominal operation and an intraperitoneal hemorrhage were considered necessary. However, a

malignant ectopic pregnancy was diagnosed histologically. A good prognosis was obtained with anti-metastatic therapy, including complete resection of the tumor.
