Download the latest version from our website: SGLI Checker review: I know it's a long video, and you're going to want to download the entire video, but at the end of the day, it's not like you're going to want to sit through this 4 hours just to watch me type some words, so I've made a quick and dirty version of this: Hello all, First, I'd like to thank the great community of Malware Hunter, by Malware Hunter Team, by Malware Hunter Guy, and by everyone who has signed up, and promoted this community. Scans can be performed using the Exe packer, PE packer, an MD5, or a valid MD5 hash (using the MD5 hash generator) and additional selection of x64/x86 output. It can also, optionally, sort by name, hash, size, date modified, or date created, and show the results in various ways. I'd like to thank the Malware Hunter, because this is my gift to you all, and I hope that you all enjoy it.
