Is Android patent threat ever ending? - jarrod_albrecht ====== jarrod_albrecht I thought I'd post an update to an old article I wrote regarding Android's patent threats. The main takeaway is that it'll likely be some time before Android's patent holdouts have done their damage. Routine treatment of acute bacterial meningitis. Despite the significant improvements in the prevention of mortality, morbidity and duration of hospitalization, the issue of choosing between routine and no routine treatment of acute bacterial meningitis (ABM) remains unresolved. To summarize the evidence regarding use of routine treatment with ceftriaxone in the management of ABM and to evaluate the components of therapeutic regimens, health care resources used, cost-effectiveness, and the most appropriate patient populations. Medline and pre-Medline searches were performed. The results of the search were evaluated by an Advisory Board consisting of four consultants, one specialist, and one specialist in clinical epidemiology and methodology. Cohort studies of patients with ABM who received antibiotic treatment for at least 48 hours compared with those who did
