TeamViewer Record and re-record is a lightweight and secure video recording app for Windows and Android. It enables you to record single video, multiple videos and group chats with high quality in easy-to-use interface.

Q: displaying open popups once fully resolved I am trying to show a popup message once my form has been resolved.

```
{ $data = array( 'form' => array( 'action' =>
site_url("settings/module/form/reset_fields"), 'id' => $cid, 'subject' =>
$module->name, 'name' => $module->key, 'lang' => "en", 'priority' => 1, 'type'
=> "popup", 'content' => $module_content, 'class' => 'popup' ), );
$module->email_infos = null; $module->save(); $jurl =
site_url('settings/module/form'); $jmsg = "window.open('".$jurl."', 'form',
'toolbar=0,scrollbars=1,location=1,statusbar=1,menubar=0,resizable=0');"
return print_r( $jmsg ); }
```

The popup comes up and when I click on it nothing happens, 6d1f23a050
