Risk stratification for erosive esophagitis by symptom severity in patients receiving maintenance esomeprazole therapy. To develop a risk stratification system for erosive esophagitis (EE) in patients receiving maintenance therapy with a proton pump inhibitor. A prospective observational study of subjects receiving maintenance esomeprazole therapy. The area under the receiver operating characteristic (AUROC) curve was 0.75 for heartburn score and 0.73 for regurgitation score. Symptom severity thresholds were selected based on the Youden index. Four risk groups were identified: low risk (≤ 1), moderate risk (2-3), high risk (4-6), and very high risk (> 6). The high-risk group had a rate of EE of 23.1%, compared with 2.7% in the low-risk group (p Linkbar These terms and conditions are to govern the use of the Website which is owned by YG Entertainment, www.yg.or.kr. 1. Acute biliary tract disease continues to be a clinically challenging problem with both acute and chronic complications. Many causes and mechanisms of biliary tract disease are well documented; however, the impact of individual lesions on the diagnosis and treatment of these patients remains a challenge. The diagnostic evaluation of biliary tract diseases should be tailored to the etiology, clinical presentation, or complications of the biliary tract diseases, as well as the preference of the individual physician. Imaging studies play a critical role in the diagnosis and follow-up of biliary tract disease. Computed tomography is the primary imaging study used to evaluate the biliary tract, but new techniques are being investigated, such as positron emission tomography. Diagnostic and therapeutic management are typically tailored to the type of disease. Ultimately, the success in clinical practice for patients with biliary tract diseases is determined by the individual's clinical acumen and evaluation of risks and benefits.Following the twist of the end of a season, each show gets more intense in the final month. It might feel like we're getting closer to the end, but a series doesn't really end until the credits roll. Either there are yet more surprises in store, or we're deep in the regular season. There are some shows where the final month is just a break, so we can safely take a breath before the next round of episodes. There are some where the final 10 episodes represent one enormous finale for the series, both in terms of plot and tone. And there are some where we were so happy to get to this point that we just have to do it a few more times before
