

Features: Macro Skimmer: The most powerful AppleScript replacement for Mac OS X has finally arrived! With the new Macros Skimmer (Macros Skimmer is an all in one AppleScript compiler for AppleScript), you can create, compile, publish and run your own AppleScripts from the top of your scripts folder. The Macros Skimmer is an AppleScript compiler that enables you to compile your AppleScripts from the top of your scripts folder. It works offline in the background and you can even schedule the compilation using it's built-in scheduler. The Macros Skimmer is great for the following reasons: - Compiles scripts and.scpt files without the need of a running xcode or applescript. - Schedules the compilation. You no longer have to remember to tell it to compile after every save. - Supports scripting in Leopard, Snow Leopard, Lion and Mavericks - Works offline. You can even schedule the compilation even if you don't have an internet connection. You can even add multiple entries in your scripts folder and it will run the top one when it is compiled and it will execute for every entry. - Compiles scripts and.scpt files from the top of your scripts folder even in case you have scripts or.scpt files in subfolders. It won't read the scripts or.scpt files in the subfolders. - Works even with scripts or.scpt files in subfolders. It doesn't have to be the start folder. It can even read scripts and.scpt files in the start folder. - Works for scripting on OSX and Scripting for Windows - Compiles AppleScripts,.scpts and.ksh files. It supports scripts in different languages and you can even convert them to.scpts and.ksh files. - Compiles AppleScripts,.scpts and.ksh files without the need for a running xcode or applescript. - Supports scripting in Leopard, Snow Leopard, Lion and Mavericks - Works offline. You can even schedule the compilation even if you don't have an internet connection. You can even add multiple entries in your scripts folder and it will run the top one when it is compiled and it will execute for every entry. - Compiles scripts and.scpts from the top of your scripts folder even in case you have scripts or.scpts in subfolders. It won't read
