Synectics FIM AG Data Mining Student Edition [2016] Full Crack (MAC) Free Download Access your business data anytime with the Synectics FIM AG FLEXible Information Management Student Edition. The student edition is pre-configured and ready to go, while still giving you the flexibility to add any add-ons you want to process data in the Synectics FIM AG FLEXible Information Management Student Edition. Although the same as the Standard edition, this version is for students only and is a must for all science, engineering and business majors. This edition is NOT compatible with Synectics Access. Once you have the Student Edition of the Synectics FIM AG FLEXible Information Management Student Edition installed, you will see the Student Edition icon on the FIM Desktop; it can be opened in the same way as a Standard FIM package and functions the same. A standard suite of pre-installed FIM modules called Basic, Professional and Premium is available to enhance your business applications. FIM is full-featured, easy to use information management suite, designed for business users. It is tightly integrated with MS Office through a set of FIM modules that users can extend. Tools FIM includes a suite of modules to help process data in MS Office Documents (.mdb,.mdx,.xls,.ppt,.xlsx). In addition, you can save your current work in an MS Office Document (.mdb,.mdx,.xls,.ppt,.xlsx). You can easily edit and manipulate the data in these documents. Users can export directly to MS Office Document (.mdb,.mdx,.xls,.ppt,.xlsx) and later import into MS Office documents (.mdb,.mdx,.xls,.ppt,.xlsx). FIM for Office helps users to clean, sort, and move data from databases (.mdb,.xls,.mdx,.ppt), MS Project (.mpc,.mpp,.mpx), and Microsoft Access (.mdb,.xls,.mdx). FIM is also integrated with MS Office to provide core business tasks, such as create documents, save files, apply filters, organize and share data with other users and computers. FIM for MS Office is designed to work with Synectics products. F
