
Sonic Mania Plus-VOKSI Tool

Denuvo Software Solutions denied both claims. In the case of Tekken 7 and Sonic Mania Plus, Denuvo has caused significant performance degradation in several ... According to reports, Denuvo is not a protection for the game, but only provides players with the opportunity to use the free version without hacking. In November 2017, Denuvo Software Solutions released an update in which it fixed security issues and began issuing bug reports that mentioned a frame rate (FPS) issue. At the end of February 2018, the company confirmed that all Denuvo-protected games will have a patch to fix performance issues.
